Hamburgh, Sept. 29. *N. S.*

WE have Lettets from Warſaw of the Nineteenth Inſtant adviſing, that a General Diet of the Palatinate of Maſſovia was held there on the Fourteenth, in order to make choice of their Deputies for the Tribunal of the Crown, but being not able to agree in that Point, they ſeparated without coming to any Reſolution. The Sickneſs continues ſtill to appear in the Town of Lublin, but there is no ſign of any Infection in the Neighbourhood of that Place. The Suedes give out that the Daniſh and Saxon Forces in Pomerania, go on ſlowly with their Operations there, and that it will be very difficult for them to Quarter in thoſe Parts this Winter, unleſs they can make themſelves Maſters of ſome Places of Strength; which the Suedes do not only pretend themſelves to be in a Condition to prevent, but likewiſe, that they will oblige them to retire out of that Province. The Suedes have hitherto preſerv'd their Communication open with the Sea, by which means they are ſupply'd with all Neceſſaries. In the mean time, General Welling has order'd every thing to be deſtroy'd in the open Country, whereby the Allies are depriv'd of all means of Subſiſtance. A Diet is appointed to be held in the Dutchy of Holſtein on the Fourteenth of the next Month, and Commiſſaries have been accordingly nominated on the behalf of his Daniſh Majeſty and the Ducal Family. The Nobility ſeem much concern'd, for that no Commiſſioners are named out of their Body; and it is obſervable that 'till now, no Diet has been ſummon'd, in that Dutchy, theſe Thirty-ſix Years.

Bruſſels, Octob. 10. *N. S.* They write from the Frontiers, That the Count d'Erbach, and ſome other Officers of the Allies, who were lately taken Priſoners by the French, and have been Quarter'd at Landrecy, having obtain'd Leave for three Months from the Mareſchal de Villars, are return'd to the Army; and it is hop'd that ſome Means will ſhortly be found out for their Exchange. The French ſeem much offended at the Directions that have been given in relation to the Garriſon of Bouchain, which are to be Quarter'd in Holland; for which Reaſon, they threaten to remove all our Priſoners farther up into Picardy. The Marquis de Coigny has been detach'd from the French Army, with twelve Squadrons of Horſe, and as many of Dragoons, in order to prevent our Forces from Foraging in the Neighbourhood of Landrecy. The French Court are under ſome Apprehenſions that the Troops of the Allies, which are to be Garriſon'd this Winter in the Frontier Towns, will give them frequent Alarms by their Incurſions; to reſtrain which, Orders have been ſent to Quarter the greateſt part of the Cavalry in the Province of Artois. Our Letters from Paris adviſe, that the Duke of Noailles, at his Return into Spain, will have the Command of a ſeparate Army in the Lampourdan, where he is promis'd to be join'd by ſome Forces out of Dauphine, notwithſtanding a Remonſtrance ſent to the French King by the Duke of Berwick, wherein that General repreſents the great Inconveniencies that will neceſſarily attend ſuch Detachments. We are told, the Duke of Anjou has confer'd the Vice-Royalty of Peru on the Prince of Santo Buoro, his late Ambaſſador to the Republick of Venice, in Conſideration of the Loſſes he has ſuſtain'd through his Adherence to His Intereſts, particularly in the Kingdom of Naples, where a conſiderable Eſtate, of which he was poſſeſt, has been confiſcated. Theſe Letters add, that the Marquis de Bay was arriv'd at Merida, and that Orders were given for the ſpeedy aſſembling of the Army in Eſtremadura.

Windſor, Octob. 5. This Day Colonel Clayton arriv'd here from North America, having left the Fleet under the Command of Sir Hovenden Walker, on the Twelfth of September in the Spaniſh River in the Iſland of Cape Britton. He brings an Account that the Fleet after having been detain'd at Boſton above a Month, Sail'd from thence on the Thirtieth of July towards Quebeck. That being got about Forty Leagues up the River of St. Lawrence, with a very fair Wind, on the Twenty-third of Auguſt the Weather grew Stormy and Foggy, for which Reaſon, the Admiral thought it proper about eight at Night to make the Signal for lying by; that about eleven they found themſelves driven by the Currents too much Northerly, and embay'd among the Rocks, where eight of the Tranſports, with twenty-ſix Companies of Land Forces, and two Ships laden with Proviſions, were caſt away.
